

## SEMINARIO

giovedì 9 aprile 2015 ore 10:00 – Aula 33

Area della Ricerca CNR di Pisa – Edificio A, piano terra

***Dr. Antonio GIULIETTI***

*Associato INO-CNR, Pisa (Italy)*

# **Review on latest experiments at the National Ignition Facility**

***Abstract:***

The main achievements and problems of the National Ignition Campaign at NIF/LLNL are introduced and discussed considering a step-by-step energy balance. Some technical features of the cryogenic hohlraum target together with the 198 beam geometry and wavelength tuning are addressed as well.
